Sub:- Implementation of Aadhaar-Based Face Authentication Attendance System-reg.

In line with the recent directive, the Aadhaar-based Face Authentication Biometric Attendance System has been activated for staff attendance marking via mobile devices. This system is designed to streamline attendance processes by enabling contactless, real-time verification through UIDAI's face authentication services.

All staff members are now authorized to mark their attendance using facial recognition on their personal mobile phones, eliminating the need for fingerprint scanners or physical terminals. To do so, officials must install the designated mobile application *AadhaarBAS* and *AadhaarFACERD* available on the respective app stores.

Attendance will be permitted only within a **"50-meter radius"** of the following GPS-enabled locations:

1. Hospital (CTMRI Premises)
2. Medical College (Pharmacology premises)
3. General Branch
4. Stores and Laundry Building

A detailed guide outlining the installation and authentication process has been enclosed for your reference. All staff are requested to complete the setup promptly to ensure seamless attendance marking.

This issues with the approval of Director and Dean .

DEPUTY DIRECTOR
